A case for all events – the new Robust Case by bwh

The brand new Robust Case promises stability and robustness by its optics and due to the high-quality workmanship and chosen materials.

It's an ideal companion for any application purpose. Stabilizing and anodized aluminum profiles, extremely durable outer surface from hard-wearing plastics in honeycomb version, corners of special impact absorbing plastics, as well as ergonomically formed and padded handle – all this leads to amazing low tare weight for high carrying comfort and ease of use. A trolley and running wheels are ideal add-ons in order to transport heavy contents.

The Robust Case is an all-rounder, temperature resistant from -30°C up to +100°C, dust-proof and splash-proof (IP54) and it can be manufactured in nearly all sizes you require and without any tool costs.

Available in six standard sizes:

Art. 50000	425 x 295 x 135 + 75 mm
Art. 50100	515 x 325 x 100 + 75 mm
Art. 50200	555 x 425 x 160 + 75 mm
Art. 50300	765 x 490 x 220 + 75 mm
Art. 50400	900 x 340 x 110 + 75 mm
Art. 50500	620 x 425 x 190 + 75 mm

Inner dimensions
(length x width x height bottom + height lid)
On request also available with wheels
and telescopic handle.

The bwh-Robust-Case guarantees perfect protection of your products by individual interiors based on your demands for daily use and also for transportation – an all-rounder case!
